KEY INSIGHTS

- . Most of the cars sold on eBay come from **North America, South America, and Europe**.
- . The **manual gear box type** dominates by double compared to automatic at each time. Almost 100% of the listed cars are classified as "Angebot" and are almost never repaired when faulty.
- . **Vehicle types** are present in almost all brands, with limousine, kleinwagen, and kombi being the most common vehicle types.

- . **Volkswagen** leads in sales volume. this brand leads in the Golf model, even in the vehicle types limousine and kleinwagen.
- . Despite Volkswagen's low horsepower levels, its prices are high. Meanwhile, Mercedes-Benz, Audi, and BMW have **high prices**, but their **average horsepower levels are also significantly high** compared to the top 10 brands.
- . Most car brands **offer various fuel types**, with gasoline and diesel being the most common.
